NOTES / INSTRUCTIONS

Technical standards, compliance requirements, etc.

Cancel + Create Tender

1. We need to add one description Box under each item.

1. After Creating RFQ, I am able to see the Tender in Supplier Self Service but that submit proposal one is not functioning.
2. In Item Creation, We need to give option to create categories (Drop Box).

Missing GRN

PO ↔ GRN ↔ Invoice

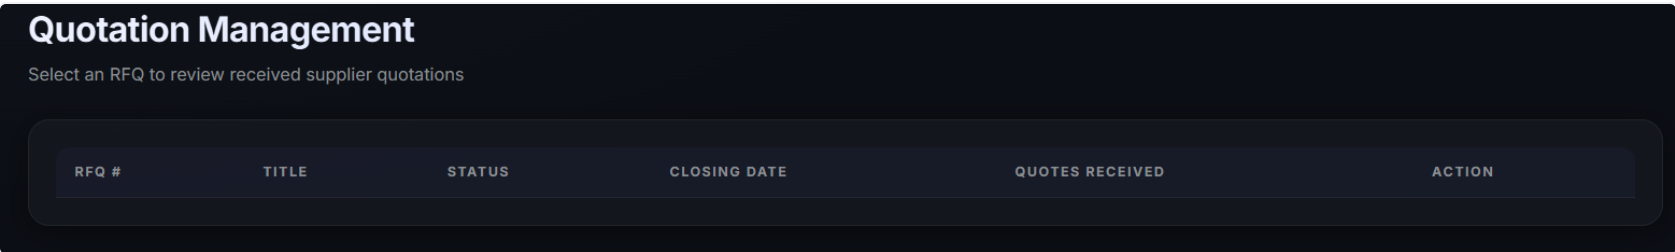

1. When we try to create blanket PO, The Dialogue Box only gives us a model, we need to be able to create a complete agreement in a description box.

- 1. Contract management is basic, we should be able to link it with Blanket PO or create a detailed contract.

- 1. We should be able to manually feed Quotation in Quotation management so the bids can be matched with RFQ manually

- 1. Light Mode some UI Colours fix
