

ProcureBuddy — Alerts Review & Action Matrix

Root Cause Diagnosis, Master Alert Specification & Standard Operating Procedures

1. Executive Summary & Root Cause Findings

Audit Findings: Alerts were silent due to (1) mutations in AppContext not dispatching addNotification(), (2) database seed wiping rules without re-seeding defaults, (3) lack of an automated condition evaluator for threshold & date-driven events (e.g. low stock, overdue POs), and (4) supplier portal action isolation. The matrix below defines the 23 standard alerts required for full operational coverage.

2. Master Alert Inventory (23 Configured Events)

Code	Module	Alert Event	Severity	Role	Trigger Condition	Action Required
PO-01	Purchase Orders	PO Approval Required	Critical	Manager	PO created in Pending status	Review lines/budget -> Approve or Reject PO
PO-02	Purchase Orders	PO Overdue Delivery	Warning	Buyer	Current date > PO ETA & not delivered	Inspect tracking -> Chat supplier / escalate
PO-03	Purchase Orders	PO Ack with Exceptions	Warning	Buyer	Vendor accepted PO with date/scope notes	Review supplier proposed schedule & terms
PO-04	Purchase Orders	PO Shipment Dispatched	Info	Warehouse	Vendor entered carrier name & tracking #	Prepare receiving dock & QA inspection
PO-05	Purchase Orders	PO Amendment Requested	Critical	Manager	Vendor requested qty or date change	Review revision -> Approve or Reject change
GRN-01	GRN & Quality	GRN Pending Approval	Critical	Manager/QC	Warehouse submitted receipt note	Audit counts -> Approve & Update Stock
GRN-02	GRN & Quality	Quality Rejection (QA Fail)	Critical	Buyer/QA	GRN logged with rejectedQty > 0	Issue RTV note -> Demand replacement/credit
GRN-03	GRN & Quality	GRN Dispute by Supplier	Critical	QA Manager	Vendor disputed rejected goods in portal	Review lab/MTC docs -> Resolve/Uphold
INV-01	Invoices & Match	3-Way Match Variance	Critical	Finance	Price or qty mismatch (PO vs GRN vs Inv)	Review variance -> Hold payment -> Credit note
INV-02	Invoices & Match	Invoice Without GRN	Warning	Warehouse	Invoice uploaded before GRN approval	Expedite receipt inspection; hold payout
INV-03	Invoices & Match	Early Payment Discount	Info	Treasury	Vendor offered cash discount for early pay	Evaluate cashflow -> Capture discount savings
STK-01	Inventory	Critical Stockout (Zero)	Critical	Engineer	currentStock == 0 for catalog item	Issue emergency PO to prevent plant downtime
STK-02	Inventory	Stock Below Reorder Point	Warning	Buyer	0 < currentStock <= reorderPoint	Review pipeline -> Replenish up to MaxStock
BGT-01	Budgets	Budget Over-Budget (100%+)	Critical	Dept Head	(committed + spent) >= totalAmount	Freeze new POs -> Request fund reallocation
BGT-02	Budgets	Budget Warning (>80%)	Warning	Manager	80% <= Utilization < 100%	Audit requisitions -> Prioritize critical spend
CON-01	Contracts	Contract Expiring Soon	Warning	Procurement	Days to endDate <= renewalWindowDays	Evaluate scorecard -> Negotiate extension/tender
CON-02	Contracts	Blanket Ceiling (>85%)	Warning	Buyer	consumedAmount / totalCeiling >= 0.85	Amend ceiling value or issue new Blanket PO
SUP-01	Suppliers	Vendor Registration Pending	Critical	Manager	Vendor submitted onboarding form	Audit license/VAT/financials -> Approve/Reject
SUP-02	Suppliers	Compliance Doc Expired	Critical	Compliance	Trade license, VAT, or ISO expired	Block PO awards until certificate is renewed
RFQ-01	RFQs & Quotes	New Quotation Received	Info	Engineer	Invited vendor submitted bid in portal	Open Quotations -> Score evaluation matrix
RFQ-02	RFQs & Quotes	RFQ Evaluation Completed	Critical	Manager	Technical & commercial score submitted	Review rankings -> Award winning quote to PO
FIN-01	Finance	Payment Approval Required	Critical	Finance Mgr	Payment record logged in Pending status	Verify bank reference/receipt -> Approve
AST-01	Assets	Maintenance Service Due	Info	Maintenance	Scheduled maintenance date reached	Execute service -> Open Asset -> Log record

Detailed Standard Operating Procedures (SOP) — Part 1

Step-by-step resolution workflows for Purchase Orders, Quality Inspections & Invoices

Alert Code & Event	Severity / Role	Trigger Condition & Notification Message	Required Action & Standard Operating Procedure
PO-01 PO Approval Required	Critical (Manager)	Trigger: PO created in Pending status or submitted for multi-tier authorization. Message: "PO #PO-XXXX (\$YY,YYY) from [Supplier] submitted for approval by [User]."	1. Open PO Detail via Notification Center. 2. Verify line item quantities, pricing, payment terms & budget envelope. 3. Click [Approve PO] to issue to vendor, or click [Reject PO] with notes.
PO-02 PO Overdue Delivery	Warning (Buyer)	Trigger: Current date > PO ETA and status != Delivered / Cancelled. Message: "PO #PO-XXXX is overdue by X days. Promised ETA was [Date]."	1. Open PO -> Review carrier tracking number. 2. Message supplier via direct PO chat to obtain updated dispatch date. 3. Update ETA or initiate supplier penalty/escalation.
PO-05 Amendment Requested	Critical (Manager)	Trigger: Supplier requests quantity or scope/date revisions in portal. Message: "[Supplier] requested amendment on PO #PO-XXXX: [Reason]."	1. Open PO -> Review requested quantity/price changes. 2. Click [Approve Amendment] (updates PO revision #) or [Reject Request].
GRN-01 GRN Pending Approval	Critical (Manager/QC)	Trigger: Warehouse logs physical delivery and submits receipt note. Message: "GRN #GRN-XXXX against PO #PO-YYYY submitted for approval."	1. Review physical delivery note, vehicle number, and line counts. 2. Click [Approve & Update Stock] to post items directly to live inventory.
GRN-02 Quality Rejection	Critical (Buyer/QA)	Trigger: GRN logged with rejected line items (rejectedQty > 0). Message: "Quality Alert: [X] units rejected on GRN #GRN-XXXX for PO #PO-YYYY."	1. Review non-conformance notes and inspection photo attachments. 2. Issue formal Return-to-Vendor (RTV) delivery note. 3. Request immediate replacement shipment or debit note.
GRN-03 GRN Dispute Lodged	Critical (QA Manager)	Trigger: Supplier disputes rejected goods via portal with lab/test docs. Message: "[Supplier] disputed rejection on GRN #GRN-XXXX: [Dispute Reason]."	1. Open GRN Disputes panel -> Review vendor lab analysis / MTC docs. 2. Conduct joint re-inspection -> Mark dispute [Resolved] or [Upheld].
INV-01 3-Way Match Variance	Critical (Finance)	Trigger: Invoice unit price != PO price OR billedQty > GRN acceptedQty. Message: "3-Way Match Failed: Variance on Invoice #[InvNum] for PO #PO-XXXX."	1. Review side-by-side comparison (PO vs GRN vs Invoice). 2. Place invoice payment on hold. 3. Notify supplier to issue a Credit Note or revised bill.
INV-02 Invoice Without GRN	Warning (Warehouse)	Trigger: Supplier uploads invoice for a PO that has no approved GRN. Message: "Invoice #[InvNum] received for PO #PO-XXXX, but no approved GRN exists."	1. Alert warehouse receiving bay to expedite physical receipt & QC inspection. 2. Withhold invoice disbursement until GRN approval is complete.

Detailed Standard Operating Procedures (SOP) — Part 2

Resolution workflows for Inventory, Budgets, Contracts, Supplier Onboarding & RFQs

Alert Code & Event	Severity / Role	Trigger Condition & Notification Message	Required Action & Standard Operating Procedure
STK-01 Critical Stockout (Zero)	Critical (Engineer/Buyer)	Trigger: <code>currentStock == 0</code> for an active catalog item. Message: "CRITICAL: [Item Name] (SKU: [ID]) is OUT OF STOCK."	1. Open Inventory -> Check item and approved vendor mappings. 2. Click [Create PO] or launch an Emergency RFQ to prevent plant downtime.
STK-02 Stock Below Reorder Point	Warning (Buyer/Inventory)	Trigger: <code>0 < currentStock <= reorderPoint</code> . Message: "Low Stock Warning: [Item Name] stock ([Current]) is below reorder point."	1. Check open PO pipeline to verify if shipment is in transit. 2. If not in transit, generate replenishment PO up to <code>maxStock</code> level.
BGT-01 Budget Over-Budget (100%+)	Critical (Dept Head)	Trigger: <code>(committedAmount + spentAmount) >= totalAmount</code> . Message: "Budget Exceeded: Envelope [Budget Name] is at [Util%]% utilization."	1. Freeze creation of new POs under this department/project code. 2. Submit budget reallocation request to transfer funds from surplus envelopes.
CON-01 Contract Expiring Soon	Warning (Procurement/Legal)	Trigger: <code>Days until endDate <= renewalWindowDays (30/60 days)</code> . Message: "Contract [Title] with [Supplier] expires in [X] days ([EndDate])."	1. Review supplier scorecard and historical delivery performance. 2. Initiate extension addendum or publish tender for new framework contract.
SUP-01 Vendor Registration Pending	Critical (Manager)	Trigger: Vendor completes public onboarding registration form. Message: "New Vendor Registration: [Supplier Name] submitted onboarding request."	1. Open profile -> Audit trade license, VAT, financials & project history. 2. Click [Approve Supplier] (generates portal password) or [Reject].
SUP-02 Compliance Doc Expired	Critical (Compliance/Buyer)	Trigger: Trade License, ISO Cert, or Insurance reaches expiry date. Message: "Compliance Alert: [Doc Title] for [Supplier] EXPIRED on [Date]."	1. Block new PO awards to supplier. 2. Request renewed certificate upload via Supplier Self-Service Portal.
RFQ-02 RFQ Evaluation Completed	Critical (Manager)	Trigger: Technical & commercial evaluation score submitted by engineer. Message: "Evaluation completed for [Supplier] on RFQ #[ID] (Score: [Score]/100)."	1. Review final weighted scoring and benchmark savings. 2. Click [Award RFQ] to convert winning quotation into an official PO.
FIN-01 Payment Approval Required	Critical (Finance Manager)	Trigger: Finance officer logs payment record in Pending status. Message: "Payment of \$[Amount] for PO #PO-XXXX requires approval."	1. Check bank transaction reference and receipt attachment. 2. Click [Approve Payment].
